4

Wash with bleach, recommended above 60 °.

Take off your clothes and put it in a plastic bag in the laundry basket.

5

Leave purse, wallet, keys etc., in a box at the entrance.

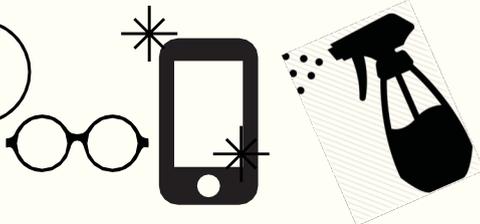

6

Hands, face cuffs, neck etc.

Take a shower! If you can't, thoroughly wash all exposed areas.

7

Clean your phone and glasses with soap and water or alcohol.

8

For every 1 liter water, use 20 ml of bleach.

Use gloves

Clean the packaging you brought from outside before storing.

9

Take off your gloves, throw them away and wash your hands.

0

Remember that it is not possible to do a total disinfection, the goal is to reduce the risk.

PROTOCOLS FOR LIVING WITH PEOPLE IN RISK GROUPS.
